## Measuring Angles | Clocks

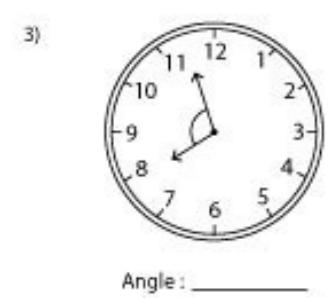

A) Find the angle formed between the hour and minute hands of each clock.

Angle : \_\_\_\_\_

Angle : \_\_\_\_\_

Angle : \_\_\_\_\_

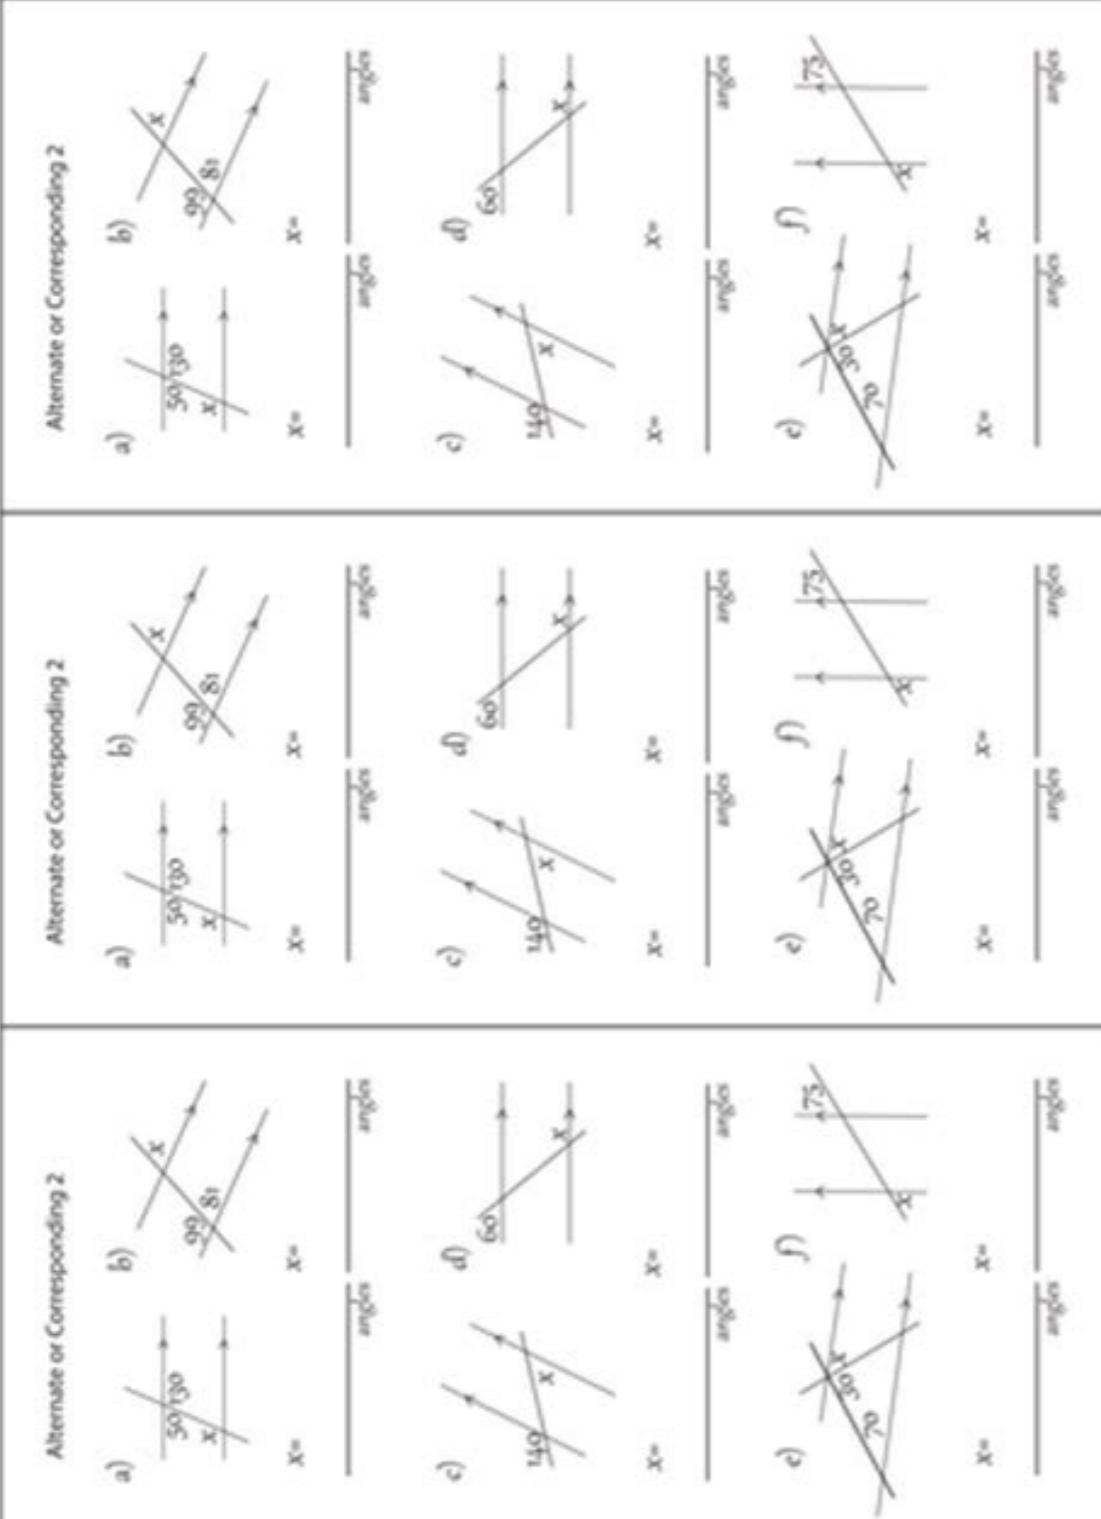

Angle : \_\_\_\_\_

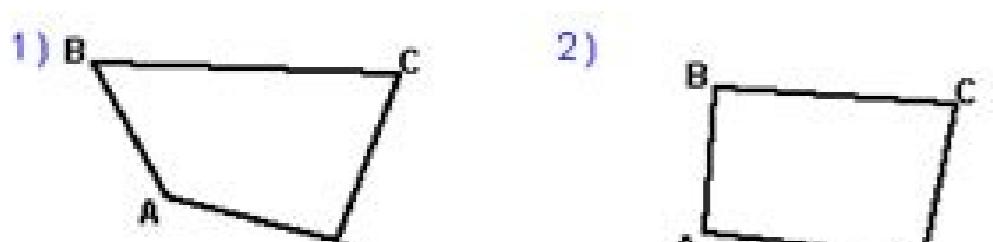

B) Draw a minute hand in each clock forming the given angle with the hour hand. (Hint: The hour hand moves corresponding to the movement of the minute hand.)

1) Angle :  $74^\circ$ 2) Angle :  $125^\circ$
